## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 8, 16 and 31 are objected to for the following reasons.

(a) In claim 8, line 4, "(vinyl alcohol)(PVA)" has been changed to "9vinyl alcohol)PVA)". The amended phrasing includes an apparently erroneous digit, and fails to maintain a proper sequence of parentheses.

(b) In claim 16, line 1, the space within "or8" has been improperly deleted.

(c) In claim 31, line 2, a period has been improperly inserted instead of a comma.

### ***Claim Rejections - 35 USC § 112***

2. Claims 29-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

(a) In claims 29 and 30, no disclosure can be found for using a plasticizer in a fiber.

(b) In claim 31, no disclosure can be found for using any of the last three species in a fiber.

### ***Remarks on Claim Interpretation***

Art Unit: 1796

3. The newly specified features of claims 1 and 8 wherein the intimate mixture comprises “a chemical cross-linking agent” or “a chemical cross linker” is understood as referring to a component which is in addition to, and distinct from, the S-sulfonated keratin protein and the water soluble polymer, wherein said agent or linker functions to cause chemical crosslinking in the composition. Similar language regarding cross-linking agents in claims 9 and 17 is understood as the addition of a component which is in addition to, and distinct from, the S-sulfonated keratin protein and the water soluble polymer, wherein said agent or linker functions to cause crosslinking in the composition. Should applicants disagree with these interpretations, they should provide an alternative meaning and identify where support exists.

4. Claims 1, 3-5, 7, 9-12, 17-19, and 26 are allowed. Claims 14-16 and 20 are objected to as being dependent upon a base claim which has been objected to, but would be allowable if the defect in the parent claim was corrected.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1796

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
